

Welcome

We are pleased to bring you this exhibition to share our proposals for development on land to the North East of Wymondham.

A number of planning permissions have been granted in the North East Wymondham area over the last few years, including the Whispering Oaks development. The opportunity now exists to consolidate these developments and provide a wider range of community benefits with further development in the area.

Various members of the development team are on hand to answer any questions or listen and note issues that matter to you.
